

RESCUE TASK FORCE

SCHEDULE

DAY 1

- COURSE ADMINISTRATION • ACTIVE SHOOTER STATISTICS • INTRODUCTION TO WARM ZONE CARE • DRIVING FORCE, REASONABLE EXPECTATION OF SUCCESS, COMMON OPERATING LANGUAGE, RISK • TACTICAL EMERGENCY CASUALTY CARE LECTURE • TOURNIQUET APPLICATIONS (SELF, BUDDY, VICTIM)
- TACTICAL EMERGENCY CASUALTY CARE LECTURE • PRESSURE BANDAGE, EVAC CARE, POSITIONING • INCIDENT REVIEWS, FACILITATED DISCUSSIONS

DAY 2

- GROUP REVIEW AND DISCUSSION • TEACH BACK AND BREAKOUTS • FOUR METHODS OF WARM ZONE CARE • COMMAND AND CONTROL BASICS • FOUR METHODS OF WARM ZONE CARE WALK-THRU • BREAKOUT SESSION #1 • BREAKOUT SESSION #2 • SCENARIOS, LIVE SPEED • ADMIN, TEACH BACK, LESSONS LEARNED, CRITICISM

16 HOURS OF TRAINING OVER 2 DAYS

This course is designed to teach students the four main methods of warm zone care during active violence incidents. The course will discuss driving tactics as well as a reasonable expectation for success during active violence incidents. This course will expose law enforcement, fire and rescue personnel, as well as other public safety partners to operating in a warm zone environment to provide point of wounding care to patients. This course will provide Tactical Emergency Casualty Care lessons so that all participants can provide appropriate point of wounding care. This course will discuss command and control considerations including the establishment of unified command, common operating language, and essential on scene functions that must be performed for the incident to be successful. This course will provide the student with ongoing training ideas for their department as well as identify some common barriers that must be overcome.

LEARNING OBJECTIVES

- Four methods of Warm Zone Care
- Tactical Emergency Casualty Care (TECC)
- Unified Command
- Active Shooter Statistics
- Risk Appetite
- Reasonable Expectation of Success
- Medical vs Tactical Driving Force
- Hot/Warm/Cold Zones
- Common Operating Language
- Essential Command and Control Functions
