• Student Presentations 5 & 6

DAY 5
• Student Presentations 7 & 8
• Course Exam

40 HOURS OF TRAINING OVER 5 DAYS

The Sniper Instructor Development Course prepares officers to instruct and manage their agency's in-house sniper program. Participants will be required to complete and present several projects during the course to develop these skills. Topics include adult learning styles, developing sniper training exercises, precision rifle range management, sniper training program development, and administrative aspects of sniper programs. This course identifies aspects of the NTOA Tactical Response and Operations Standard related to sniper operations.

Students must have completed a basic law enforcement sniper course and served as an operational LE sniper for at least two years.
